

## ACCT/CTAA Technical Assistance Projects

---

ACCT and Community Transportation Association of America (CTAA) have offered a technical assistance grant program. Through this program CTAA will assist communities in developing projects, facilitating coordination, and conducting operational assessments and other similar projects. We expect to have approximately \$300,000 worth of technical assistance available.

The projects were selected by members of the Community Transportation Association of the Northwest and ACCT staff based on:

- the benefit to community;
- benefit to others outside the community;
- the presence of a measure of success; and
- the level of coordination with other providers and plans.

The following community projects have received initial approval for funding:

### Projects Approved for Technical Assistance

Applicant	Project Title	Estimated Value of Project
Clallam Transit and Olympic Area on Aging	Building Community Partnerships	\$ 15,000
Cowlitz Transit	Strategic Plan	\$ 12,500
People for People (For Yakama Nation)	Yakama Tribal App	\$ 45,666
Elmview	Effectiveness and Efficiency	\$ 14,650
Jefferson Transit	Community Van Program	\$ 16,000
Mason Transit and Senior Service of Snohomish	Technology Assessment	\$ 55,000
Mt. Si Senior Center	Assessment of Rural Services	\$ 25,000
Pierce County	Common Standards	\$ 40,000
Puget Sound ESD	Coordinated School Transportation	\$ 45,000
Volunteers of America	Minimize the Risks	\$ 23,000
	<b>Total</b>	<b>\$ 291,816</b>

Additional projects may be funded based on the availability of funding.
